Dedham-Westwood Water District to Rescind Water Restrictions on Friday, September 1

Dedham, MA – Effective Friday, September 1, the Dedham-Westwood Water District will rescind [voluntary water restrictions, Stage I](#).

“This summer, we have experienced a significant amount of rainfall. These wet conditions have kept our sources more than replenished, enabling the District to forgo water restrictions earlier than usual,” said Executive Director Blake Lukis. “I would like to thank all of our customers who diligently made the conscious effort to conserve water by voluntarily complying with this year’s restrictions.”

Customers are encouraged to practice voluntary water conservation efforts year-round inside and outside their homes. Learn helpful tips to conserve water on our [website](#), [Facebook](#), [Twitter/X](#), and [Instagram](#).
