**QUESTIONS AND ANSWERS**

Q1: Please confirm that the Electrical Filed Sub-Bidder shall provide underground ducts and raceways for electrical systems **but are not responsible** for the necessary excavation, backfill, and surface restoration. Please confirm the Electrical Filed Sub-Bidder is to furnish all electrical manholes and electrical handholes **but are not responsible** for the installation of the electrical manholes and handholes. Please confirm that the Electrical Filed Sub-Bidder is responsible for the make safe and removal of wires for the demolition of electrical duct banks but are not responsible for the removal of the physical duct bank, including contract. Please confirm that the Electrical Filed Sub-Bidder owns demolition of electrical equipment to the on-site dumpster and **not responsible** for their own disposal of the equipment.

**A1: The General Contractor is responsible for all excavation, backfilling, and surface restoration of conduits on-site. As discussed in Addendum #2 – we do not anticipate electrical manholes or handholes. If these are required, the Electrical contractor shall furnish these items for the installation by the General Contractor. Electrical filed sub-bidder owns demolition of electrical equipment to the on-site dumpster.**
